Cellphones and Other Personal Digital Devices

At Cust School, our approach to cellphones and other personal digital devices supports student engagement and achievement. Personal digital devices include cellphones, which we manage according to government regulations, and other devices such as laptops, tablets, and smartwatches. Devices that are part of a school-approved Bring Your Own Device (BYOD) programme have separate conditions for use.

Cust School does not recommend that students bring personal digital devices to school. These are not necessary to have during the day. However, we understand that some parents like their children to have a device to communicate with them after school.

Cellphone regulations

To comply with government regulations, we ensure students do not use cellphones during school hours, including break times. Parents/Caregivers can request an exemption from the school if required. We allow exemptions for students to use cellphones if they are required for:

- a specific educational purpose approved by a teacher
- health needs (e.g. to monitor insulin levels)
- disability or learning support needs
- a special circumstance approved by the principal.

If a parent or caregiver needs to contact their child during school hours, they should call the office.

Rules about cellphones and other personal digital devices made by the board are a **school bylaw**. The board consults with the school community when making or amending bylaws. We discuss school rules about personal digital devices at the beginning of the year, and throughout the year as needed.

Device requirements at school

The school promotes safe and responsible use of digital technology. Students are required to comply with our digital technology policies and procedures if devices are brought to school. See **Digital Technology and Online Safety**.

If students bring personal digital devices (including cellphones) to school, the following requirements apply:

- Students may take certain digital devices on EOTC activities, but should check whether their device is allowed before the activity commences. These guidelines and other relevant school policies apply.
- The device should be kept turned off and out of sight.
- If personal digital devices are used for a learning activity, this will be at the teacher's discretion, and their use is supervised by school staff.
- Devices will not be used at break times.

Inappropriate use

Inappropriate use of a personal digital device may include:

- using a device when not allowed
- any sort of bullying, including **▶ online bullying**
- sending or sharing inappropriate content
- taking photos or videos of other people without their permission.

Inappropriate use of a personal digital device is managed according to the relevant school policy or procedure:

- **Behaviour Management**
- **Responding to Digital Incidents**
- **Surrender and Retention of Personal Digital Devices**

If a student uses a personal digital device inappropriately (including using a cellphone when it is not allowed) the student must hand it to a staff member immediately when asked. If possible, the student should lock their device before handing it to staff. The device will be kept in the office and can be collected by the student at the end of the day.

The principal assures the board that the school does not allow students to use cellphones during school hours, including break times, unless students have been granted an exemption. See **Self-Review and Board Assurances**.
